

Tom Hockenhull

Games environments and props artist

+ Professional Summary

I am a motivated and resolute master's graduate who is currently working as a game's lecturer at Hopwood Hall College. I am eager to transition into the games industry and apply my academic and practical experience into a full-scale industry project. I mostly specialise in PBR realism/semi realism, but I have also undertaken several projects that required more stylised artstyles.

+ Work experience

Sept 2024 — present | Games Art FE/HE Lecturer

Hopwood Hall College

- Developed curriculum aligned with modern industry standards, including a pioneering BSc in indie games development
- Delivered lectures on Unreal Engine 5, Blender, and Substance Suite
- Supported learners with a range of needs and skill levels

Feb 2017 — Jun 2020 | Plant Hire Administrator Mini Piling Plant Hire

- Managed logistics, quotations, and client relationships for equipment hire
- Maintained financial records and streamlined invoicing using QuickBooks
- Provided IT support and maintained the company website
